- Sound is working
- Headset is recommended

Further Help required?

If you need assistance installing or running the program, please mailto:
sahajanand@eltemple.uk.
Describe the problem, and leave us your contact number. Someone from the school will contact you.

1.- Downloading the Program

Go to the Mandir website http://www.eltemple.uk

Go to the Gujarati School Section

Click on Gujarati Software. Clicking on this will start to download a file called "Gujappsetup.ZIP" to your computer. It will be saved to wherever your downloaded files are saved.

2.- Preparing to Install the Program

2.1 – Confirm which version of Windows you have

Click on the Start button, Locate "Computer", right click on Computer, and choose Properties. (see example below)

Depending on your Operating System, the display you receive will vary. Below is an example of Windows 7 Operating System.

If you have Windows XP then, please skip to Section 3 – Installing the Program.
If you have Vista, or Windows 7, 8 or 10 please continue with at Section 2.2 – Changing User access control.

2.2 - Changing User Access Control:

In order to install the Program you need to change the User access control from the Windows "Default" to "Never". Follow the steps below.

Click on Start

In the box "Search programs and files" (this may be "Run" for Windows Vista.
Type in **User control (**see example below)

After typing User control, at the top of the display you will see "**Change User Account Control Settings**". Click on this.

On The next display Slide the slider to the bottom (as show in the example below), then click on OK.

After clicking on OK, you will get a message, that you must restart you computer. Please do this.

Once the System has restarted, your system is now ready to install the Gujarati Learning Program.

If you have Windows XP, Windows Vista, Windows 7 or Windows 8 - Go to Section 3.

If you have Windows 10, Go to Section 4.

3.- Installing the Program

You may start to install the program if you have Windows XP, or if you have changed the User access Control. If not please refer to the above steps before proceeding.
NOTE: If you are installing on Windows 10, please go to section 4.

3.1 – Executing the Install program

Locate the file that you downloaded from the School web site, and double click it.

Click Next

Select "I Agree", and click Next.

Select "Everyone", and click Next.

Click Next

Wait until the program finished the installation.

Once the program has finished installing you will see the following display.

Click Close.

Program has installed skip to Section 5 – Running the Program

4 – Installing on Windows 10 Only

Follow the instructions below only if you are on Windows 10.

4.1 – Executing the Install program

Locate the file that you downloaded from the School web site, and RIGHT CLICK" on the file. You will get a menu (see below):

Click on "Troubleshoot compatibility"

The system will detect compatibility issues. (see below)

Once the system has finished, click on "Test the Program"

The program will now start to install.
Click Next

Select "I Agree", and click Next.

Select "Everyone", and click Next.

Click Next

Wait until the program finished the installation.

If you get the below window, then click on "no"

Once the program has finished installing you will see the following display.

Click Close.

Program has installed skip to Section 5 – Running the Program

5 - Running the Program

5.1 – Starting the program

Make sure Sound is working and volume is set to a value comfortable to you.
In a noisy environment a Headset is recommended.
Locate the program installed on your computer, and click on "GujApp".

5.2 – Registering a New User

When running the program for the first time or running for a "new" user, click New
If you have already registered the user, just type in the "User Name" and the Password and click "OK".

When creating a new user, enter a name of the new user in the User Name field, and enter the password for this user, then click "OK".

Note: Do not forget the Username and Password, else you will need to re-register the person.

5.3 – Logging into the Program

Enter the username and password, and click OK.

Click on File, Select the Last Exercise, and last level completed

Note, as you complete levels, other levels will be unlocked.

We recommend that even after all exercises are completed, you start all over again. The more you use it, the more you will learn Gujarati.

If you need assistance installing or running the program, please mailto: **sahajanand@eltemple.uk**.
Describe the problem, and leave us your contact number. Someone from the school will contact you.
