Installing Teamviewer

Got to http://www.google.co.uk

Search for **Teamviewer**,

Click on **Download**

Click on the **Download** Button. This will download whichever the current version is.

Click on **Run**, at the option to run or save.

Click on **Accept -finish**

Program starts to install. Please wait, and let it finish.

Teamviewer has finished installing when you see this window. If you need help, your ID and password will be required.
